#### BISHOP SPALDING TALKS OF MORMONS

New York, June 17.—Polygamy as part of the faith of the Mormon church will end within thirty years. Such is the view expressed today by Bishop Spalding, Episcopalian church leader of Utah. The bishop has written much on the subject of Mormons, and both by Mormons and others his conclusions have carried weight.

## DESTROYED DOCUMENT

Berlin, June 17.—The twenty-fifth anniversary of the accession of Emperor William to the imperial throne was celebrated yesterday throughout the German empire as a general holiday. The commemoration, which had been deferred from its actual date out of respect to the memory of the emperor's father, Frederick, coincides with the forty-second anniversary of the triumphal return of his grandfather at the head of his victorious army after the Franco-Prussian war and was naturally marked by considerable military display.

Emphasis, however, was laid also on the peaceful aspects of the emperor's quarter century reign—industrial and civil developments and the material prosperity of the country.

A remarkable story showing Emperor William's attitude toward the constitutional monarchy was related yesterday at the celebration of the twenty-fifth anniversary of his reign by the faculty and students of Berlin university.

Prof. Otto Hintze, professor of constitutional and administrative history, declared that the emperor himself had told him years ago how he had first disregarded and then destroyed the standing army made by Frederick William IV. of Prussia to his successors to abolish the Prussian constitution. The emperor said the first documents found in his desk after his succession was an envelope containing the political testament of Frederick William IV., which was to be delivered to each of his successors on his accession. It urged in the strongest terms the revocation of the Prussian constitution before the taking of the coronation oath by the new monarch.

Frederick William IV., who had granted the constitution to Prussia during the stormy days of the middle of the nineteenth century, always regretted his act, but did not find either the opportunity or the courage to revoke it. Emperor William, like his father and grandfather, had no inclination to follow the advice of Frederick William IV., but he went further and destroyed the document for fear of the influence it might have on some young and inexperienced successor.

The emperor said:

"I felt as if I had a powder sack in the house, and it worried me so that I finally burned the testament."

## IMPROVE HARBORS

Washington, June 17.—Delegations from San Francisco, Los Angeles and Stockton, accompanied by members of the California delegation in congress, yesterday appeared before the United States board of engineers for rivers and harbors to advocate harbor improvement projects. "Senator Works addressing the engineers in support of the propositions, took occasion to discuss and criticize the present methods for handling work for rivers and harbors. He disapproved the 'contributory' plan, declaring that if the government thought enough of any project to undertake its improvement, it should bear the entire expense as a matter of public policy.

The board was urged to approve plans for deepening and widening the inner harbor at Long Beach and the harbor of Los Angeles as a joint project and for the improvement of the harbor at Richmond across the bay from San Francisco.

Immediate improvement at these places was urged because of the prospect for early completion of the Panama canal and the consequent increase in immigration from southern Europe by way of the new waterway. The delegates declared that the United States steamship company intended to place in the Pacific coast trade 15 new steamers and that it will make an effort to divert a large part of the immigration now going to New York. The citizens of both Long Beach and Los Angeles were said to be willing to bear half of the expense that may be fixed by a government survey.

Senator Works is asking that the government make a survey of a proposed harbor and then undertake the work on a contributory basis, the city already having nearly two million dollars available. It was contended that the construction of the harbor was a necessity to relieve the congestion at San Francisco and other bay points and to obviate the rehandling of freight for inland destinations.

## FREE WHEAT AND CATTLE

Washington, June 17.—The much-mooted agricultural schedule of the Underwood tariff bill was suddenly upset again by the majority members of the senate finance committee late yesterday when a motion was made to reconsider action taken earlier in the day approving the free listing of livestock and wheat, subject to a countervailing duty. The proposal now is to strike out the provision for a countervailing duty and leave cattle, sheep and hogs and wheat on the free list, unrestricted. Members of the committee said tonight that this probably would be done by the majority. No reason for the change was announced.

For weeks the equalization of the agricultural raw products and finished products, which were differentiated in the Underwood bill, has been a problem for the Democratic senators, in which President Wilson has taken an active interest. The house put meat and flour on the free list, leaving livestock and grains dutiable at ten per cent ad valorem and ten cents a bushel, respectively. The senate finance sub-committee soon after receding the schedule, agreed to equalize the rates and eventually voted to make the raw materials and the finished products all dutiable.

No sooner had this conclusion been reached than Senator Simmons and

other Democratic senators of the finance committee declared that the problem would not be settled rightly if left that way. They were of the opinion that all products which enter into the cost of living should go on the free list, and President Wilson agreed with them.

Senator Simmons communicated this information to the sub-committee and it reconsidered its action, placing all these products on the free list. Later it was announced that the committee would adopt a countervailing duty clause, which would make the products free only from countries which did not make them dutiable from this country. This would operate against the free entry of livestock from such countries as Canada and Argentina.

The committee further enlarged today the free list by voting to take away the duty from the dutiable list. The Underwood bill rates on flour were from one to one and one-half cents per pound and on hemp and ramie from one-half to one cent per pound, according to grade. It was urged that these products should class with other products of the farm and that by free listing them the cost of living might be beneficially affected. Rates on finished products from these materials were materially reduced.

It was also decided not to consider the amendment proposed by Senator Hitchcock that would put a graduated revenue tax on the output of tobacco. This amendment followed suggestions made by Attorney General McKeen, but which the administration did not see fit to endorse at this time.

Bananas, which have never been subject to a tariff tax, were put on the dutiable list by action of the committee. To encourage American growers was given as the reason.

Despite many protests against the cuts in the tariff, the senate committee left the schedule as it was. No change was made in the liquor schedule, but it was left open for amendment, Senator Pomeroy having asked to be heard tomorrow on the matter.

Another important addition to the free list was made by the senate committee late tonight, when half of the Angora goat and mohair were sheared of the 40 per cent ad valorem duty proposed in the Underwood bill. Under the Payne law, Angora hair was dutiable at 12 cents a pound, the equivalent of 38.2 per cent ad valorem.

The committee completed the wool and silk schedules without any other material changes. In rates on manufactures of wool, and the duties on certain silk yarns were changed from ad valorem to specific.

## TOM KEARNS LOSES SUIT

Washington, D. C., June 17.—Petition for writ of certiorari filed by attorneys for the Silver King Coalitions Mines company in the case of the Silver King Consolidated Mining company against the Silver King Coalitions Mines company was denied by the supreme court yesterday.

Salt Lake, June 17.—Simultaneously with the news from Washington that the application for a writ of certiorari was denied by the supreme court, that tribunal in the first case filed against it by the Silver King Consolidated Mining company, the surveyors going through the company's mines in behalf of the Consolidated in its second suit, filed yesterday before the United States district court here a part of the property.

The first suit is thus virtually settled against the Kearns concern and in favor of the Silver King company. The latter had secured judgment in the lower federal court for an amount which now, including interest, amounts to more than \$900,000. The suit was for damages for ores alleged to have been taken from the Vespucius claim of the two companies. Both the plaintiff and the defendant brought the case to the circuit court of appeals, which sustained the plaintiff's appeal and denied that of the defendant. Alleging that the case presented unusual angles, the Coalition then applied for a writ of certiorari which would allow the case to come before the supreme court.

As announced a week ago by H. R. MacMillan, of counsel for the plaintiff, the application for the writ was fought as strenuously as would the case be fought had it come to the court. Attorneys for plaintiff claimed that the case was in now unusual because several adverse decisions had been made in similar cases before, and under similar circumstances. Although no information has been received as to the reasons for the supreme court's denial of the writ, it is believed the court also held that precedents had been established in such cases and no further wrangling was necessary.

No further appeal now remains for the Coalition company. It must pay the judgment as soon as the decision of the supreme court arrives here through the regular channels. As for collecting, the Coalition has put up a bond for \$1,000,000 in this case, according to Attorney MacMillan, and the latter also says he believes that the Coalition has a fund set aside for payment in case the case went against it.

The local stock market was influenced by an early rumor that the writ of certiorari had been denied, and the stock of the Consolidated jumped from \$1.45 in the morning to \$2 in the afternoon.

## GUARDS FIRE UPON STRIKERS

San Francisco, June 17.—In a riot in the downtown district late yesterday, resulting from a collision between strikers and employees of the Pacific Gas & Electric company, William Bricker was shot in the leg, Miller M. Sykes was severely beaten and Policeman Charles Russell's helmet was shot from his head by Sykes. Sykes is employed as a guard by the gas company. He became involved in a dispute with strikers and a general strike was called. Bricker and Russell rushed up Sykes opened fire on the strikers and their sympathizers.

## WOMAN KILLS HER DOCTOR

Savannah, Ga., June 17.—Dr. Guy O. Brinkley, a physician of this city, was shot to death in his office here late yesterday afternoon by Mrs. Eugene H. Whisnant, a widow, who, after firing six shots at the physician, sent a seventh bullet through her temple, falling lifeless across the body of her victim.

The police are searching for an unknown woman, who is said to have accompanied Mrs. Whisnant to the doctor's office. Dr. Brinkley, who was about 45 years old, and unmarried, came here about seven years ago from Suffolk, Va. He was popular socially and professionally. Mrs. Whisnant, aged 28, was the daughter of a Savannah boarding-house keeper. No cause has been assigned for the tragedy.

It is said that when Mrs. Whisnant and her companion reached the doctor's office the former went with Dr. Brinkley into his private office, the other woman remaining in the outer office. A few minutes later the firing began and Dr. Brinkley rushed out, followed by Mrs. Whisnant, who was steadily firing. Dr. Brinkley called to a maid to summon the police. Mrs. Whisnant is said to have pursued the doctor to the porch and back into the office, continuing to fire at him. Her sixth shot entered his heart, killing him instantly. The woman then shot herself through the head.

## DETECTIVE IS GUILTY

Salt Lake, June 17.—Hugh L. Glenn, city detective, who, according to Harry S. Harper, has repeatedly defied the authority of the justice court, was found guilty of criminal contempt of court by Justice Harper yesterday. Represented by W. H. Poland, assistant city attorney, Glenn asked that sentence be delayed one week and he will be sentenced at 2 o'clock next Monday afternoon. Glenn was released on his own recognizance, pending sentence, and he left the courtroom immediately in company with other members of the police department.

Glenn's conviction came through his prosecution of Mrs. Ingeborg Martin, proprietor of a rooming house who was arrested May 1 without a warrant and charged with violating the state liquor law. Through the appearance of her attorney, Mrs. Martin immediately went to the county attorney, procured a complaint and then procured a warrant from Justice F. M. Bishop. This warrant, according to testimony introduced yesterday was marked specially so that it could be served at night. It was then held and on instructions from

Glenn it was served on Mrs. Martin and her husband at 1:45 Sunday morning; at a time when it was impossible to obtain bail, which was fixed at \$700.

By this action, Justice Harper ruled, Glenn had shown open and criminal contempt for the lawful order of the court, releasing Mrs. Martin when she was first arrested. It was pointed out that whenever the police arrest someone with a "pull" they had no hesitancy in getting the prisoner before a magistrate and fixing bail, but that in this instance, after Justice Harper had ordered the woman's release, Glenn immediately rearrested her.

#### DEFICIT IN FUNDS SHOWN

Statement of receipts and disbursements of the county by County Auditor Thomas E. McKay was submitted to the county commissioners yesterday morning, showing that there is a deficit in the general fund of \$22,101.63 and in the salary fund of \$467.31, while the poor fund has a credit of \$820.61. The salaries for the county employees this coming month will have to be paid out of the general fund. Receipts for the month amounted to \$5238.71 and disbursements were \$1877.11.

There was \$4570.15 spent on the county roads during the month as follows: Eden, \$27.05; Farr West, \$226.62; Harrisville, \$64.62; Hooper, \$111.16; Huntsville, \$163.88; Kanesville, \$84.21; Marrott, \$119.10; North Ogden, \$306.50; Plain City, \$567.81; Pleasant View, \$7; Randall, \$46.75; Riverdale, \$383.01; Roy, \$29.75; Siltville, \$108.82; Taylor, \$292.42; Ulin, \$41.85; Warren, \$131.93; West Warren, \$65.25; West Weber, \$318; Wilson, \$401.86; Ogden, Canyon, \$393.31; general road expenses, \$628.69.

#### MONTANA SENATOR VISITOR IN SALT LAKE

Salt Lake, June 17.—Former Senator William A. Clark of Montana, accompanied by W. A. Clark, Jr., and H. C. Nutt, general manager of the Salt Lake route, arrived in Salt Lake yesterday afternoon on a special train. Senator Clark and his son will leave the city at 1:45 o'clock this afternoon for Butte, where they go for a short stay.

Sensor Clark has just been on a trip which included Jerome, Ariz., where he has large interests, Los Angeles and Ophir. Regarding conditions at Ophir, where the senator owns valuable mining properties, it was stated that the mine was in excellent condition and that the new mill, with a capacity of 200 tons a day was working satisfactorily.

Asked as to the general business outlook, Senator Clark was inclined to take a pessimistic view of the situation. He said that the physical condition of the country was never better, but that the agitation over the tariff had unsettled business conditions to a marked degree. With reference to recent decisions of the court affecting railroads, the senator said that no man who had money would build a railroad at this time and that the man who didn't have the money and wanted to build a railroad could not borrow the money.

He expressed the hope, however, that the financial situation would right itself in time and that the country would again be as prosperous as it has been in the past.

## Would You Rather Pay Rent Than Own Your Home?

Of course not, but if you are renting now, it will be your own fault if you continue to pay rent, when you can apply the rent money in buying a lot in

## Glenwood Acres

Some misguided people say that it doesn't pay to own a home. Ask your landlord. Look around you and you will see that people who are prospering and enjoying life own their own homes. Owning a home is the foundation for success. You will be a better citizen.

## When You Own A Home

The increased real estate values become YOUR PROFITS. When you pay rent these profits go to a landlord. When you own a home you beautify it with trees, lawns and flowers and other improvements, making life more pleasant. All these things add to its value. And no one can come and raise the rent, tell you to move when it would be inconvenient, or find fault with the children. In fact, there is a feeling and sentiment about owning a home that you can never enjoy in a "rented house."

## The Ideal Homesite

Is roomy—with a large lot—large enough for lawns, flowers, orchard, garden, chicken runs, etc. Yet you should not move beyond the modern conveniences, such as cement sidewalks, electric lights, telephones, street car service, city water. And last, but not least, you should have a rich loamy soil, with a primary water right. Add to these a choice location, with cooling summer breezes and nearly frost free conditions in the winter and you can make a beautiful home. All these features you will find in GLENWOOD ACRES.

## JUST REMEMBER

If you have lived in a "rented house" for many years, or if you are just beginning married life, or if you are a young man or woman, desiring a safe investment, that there are only a few lots to be sold in Glenwood Acres, and that therefore you should act at once.

#### NOTICE ON ORDER TO SHOW CAUSE

In the District Court of the County of Weber, State of Utah.  
In the matter of the estate of John T. Ballantyne, deceased.

Elizabeth Rowe, the sole administrator of the estate of John T. Ballantyne, deceased, has filed with the undersigned clerk of said court, his petition praying for an order of said court authorizing him to mortgage the whole of the real estate of the said deceased for the sum of \$8500.00, and for the purposes therein set forth; and that on the 9th day of June, 1913, the above named court duly made and entered an order requiring all persons interested therein to appear before said court on Monday, the 23rd day of June, 1913, at 10 o'clock a. m., at the Court Room of said court in the County Court House in Ogden City, in the said County of Weber, to show cause why the whole of such real estate which is hereinbefore described should not be mortgaged as prayed for in the petition. The real estate referred to is described as follows:

The northwest quarter of the north-east quarter of Section 13, in Township Five North, of Range Two West, of the Salt Lake Meridian, United States Survey, containing forty acres; and a part of the southeast quarter of section 12 in said township and range bounded as follows: Beginning at the southwest corner of said quarter section and running thence north 4 degrees east 98.96 feet along the quarter section line; thence north 82 degrees 10 minutes east 1332.5 feet; thence south 4 degrees west 98.96 feet; thence south 89 degrees 10 minutes west 1332.5 feet to the place of beginning, containing three acres. The said 43 acres comprised the homestead of the deceased, at the time of his death, and upon which his dwelling house is situated.

Also, the southwest quarter of the southeast quarter of Section 11, in Township and range aforesaid.  
Dated June 11, 1913.
